

[REDACTED]

[REDACTED]

27<sup>th</sup> March 2014

Dear Sir/Madam,

**CL7 – Basement Developments**

I am writing in support of the policies in CL7, which are sound.

I strongly support the policies to limit the scale of basements, and to reduce their impact on neighbours' amenities and quality of life.

I have lived in the Royal Borough since 1977, most recently as a freeholder at [REDACTED]  
[REDACTED]

The construction of a subterranean basement at Glebe Place has meant that we have lived next to a construction site for some 4 years.

We are threatened with further disruption, noise and an adverse affect on our quality of life, as a second subterranean basement may be built by our neighbour at [REDACTED]  
[REDACTED]

Yours sincerely,

*John Rows*
